Countrymen UK is a small, hands-on charity helping older men overcome isolation through meaningful, farm-based activities. We are seeking a practical, compassionate Manager to lead our Dorset project and its future development.

You will manage staff and volunteers, plan outdoor sessions, ensure compliance and necessary fundraising and marketing activities, and maintain positive relationships with carers, funders and partners.

We are looking for someone who is organised, confident with people, and enthusiastic about rural life. Experience in health, social care, or working with older adults is a plus. A car owner/driver is preferred.

This is a rewarding role offering flexibility, purpose, and the opportunity to grow the charity.
